

InfoSight™ Managed Security Services Case Study

Alabama National BanCorporation

Alabama National BanCorp is a \$7.6 billion bank holding company that operates in 100 locations through 12 bank subsidiaries in Alabama, Florida and Georgia. These banks provide retail, commercial, investment, brokerage, trust, leasing, insurance, and residential and commercial mortgage banking services for businesses and individuals.

As part of Alabama National BanCorp's plans for the future to "integrate more efficient and productive technology systems" InfoSight™, Inc. has been selected to partner with the banks information technology department to provide information security services.

InfoSight provides information security services to Alabama National BanCorp including Managed Intrusion Prevention, Firewall monitoring and event log management services. Additionally, InfoSight implemented both Email Encryption as well as Email Content Filtering solutions.

Alabama National BanCorp information technology department prefers to separate their IT security from their daily technological needs thereby providing a more manageable way to meet current security standards, as well as improve compliance with regulatory requirements and laws such as Gramm-Leach-Bliley Act (GLBA), Sarbanes-Oxley Compliance (SOX), and Federal Financial Institutions Examination Council's (FFIEC) standards.

According to Alabama National BanCorp's I.T. Security Officer, "InfoSight offers excellent security services at a reasonable price. Partnering with InfoSight has proven to be a successful partnership because of their product and security expertise which provides a high-level of security protection including professional trusted advice combined with intelligent solutions to address our on-going security needs."

Alabama National is a bank holding company operating 100 locations through twelve bank subsidiaries in Alabama, Florida and Georgia.
